Co-operative Development Foundation of Canada

Since 1947, CDF has been supporting projects in small villages and farming communities that help farmers to market their produce co-operatively, women gain access to credit through credit unions, communities to develop housing co-operatives and worker-owned co-operatives to produce the goods and services needed in the community. The Co-operative Development Foundation of Canada supports the advancement of education and development without discrimination, for the relief of poverty and for community development in 20 countries.

Saskatchewan Co-operative Co-op Youth Program

Since 1928, Co-op Schools and the Saskatchewan Co-operative Youth Program have educated almost 43,000 young people. Through a highly effective mix of leadership, communication and teamwork skills and self-esteem building, as well as the increased knowledge and understanding of co-operatives that young people gain at Co-op Camp, SCYP has had a positive influence on youth in Saskatchewan for over 80 years. Each summer, SCYP makes a difference in the lives of hundreds of our province's youth.
