

FCL WINS SABEX AWARD FOR ENVIRONMENTAL SUSTAINABILITY

[Federated Co-operatives Limited](#), the central wholesaling, manufacturing, marketing, and administrative services provider for co-ops across Western Canada, has won the [Saskatoon Achievement in Business Excellence \(SABEX\) award](#) in the category of environmental sustainability.

The SABEX Award for Environmental Sustainability is given to a business that demonstrates a strong commitment to environmental sustainability by reducing its environmental footprint, providing innovative products/services with environmental benefits, and promoting environmental sustainability with its customers/members.

In August 2009, FCL implemented a new environmental policy with a strong focus on environmental sustainability. The policy supports the development of environmental consciousness among all of employees, and supports programs that reduce FCL's environmental footprint, while operating in a manner that is financially and socially beneficial for the long term.

The award was announced at the SABEX awards banquet on May 18.
